

Name:	<a href="#"><b>UTTAR PRADESH JOURNAL OF ZOOLOGY</b></a>
Manuscript Number:	<b>Ms_UPJOZ_3257</b>
Title of the Manuscript:	<b>Evaluation of partial replacement of barley grain with heated potato processing by-products in the diet of dairy cows using an in vitro gas production technique</b>
Type of the Article	<b>Original Research Article</b>

## 1: Review Comments

	Reviewer's comment	Author's feedback
<b>Compulsory</b> REVISION comments  <b>1. Is the manuscript important for scientific community?</b>  (Please write few sentences on this manuscript)  <b>2. Is the title of the article suitable?</b>  (If not please suggest an alternative title)  <b>3. Is the abstract of the article comprehensive?</b>  <b>4. Are subsections and structure of the manuscript appropriate?</b>  <b>5. Do you think the manuscript is scientifically correct?</b>  <b>6. Are the references sufficient and recent? If you have suggestion of additional</b>	<p><b>Without any doubt the manuscript is so good and valuable for the scientific community.</b></p> <p><b>Either Your title or your paper should need some modification based on the replacement techniques. Is it partial replacement of barley grain or fully?</b></p> <p><b>In my opinion, it is better to use structured abstract format.</b></p> <p><b>Some of your references are old. In recent time science is being modified in blink of eyes therefor you better use the recent one.</b></p>	<p>1. Thanks a lot dear Reviewer.</p> <p>2. The title was changed to "Evaluation of partial replacement of barley grain with heated potato processing by-products in the diet of dairy cows using an in vitro gas production technique"</p> <p>3. Thanks a lot. It modified into a structured abstract format.</p> <p>4. Thanks for the comment. 5 new references was added to the manuscript as much as possible</p> <p>Dear Reviewer, as it was mentioned in the manuscript introduction, the studies related to using heated potato by-products in lactating dairy cows' diet are scare. Anyhow, the experimental design and selection three level</p>

<p>references, please mention in the review form.</p> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p>	<p>I haven't seen any sample designs used in this investigation; you simply select seven experimental cows. Set your ground on the sampling design.</p>	<p>of FFW and HPS (5, 10, and 15 %) was done based on the literature reviews which was done by the authors</p>
<p><b><u>Minor</u></b> REVISION comments</p>	<p>Published after minor</p>	
<p><b><u>Optional</u></b> comments</p>		

## **PART 2:**

	<p><b>Reviewer's comment</b></p>	<p><b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i></p>
<p><b>Are there ethical issues in this manuscript?</b></p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
