<b><u>Compulsory</u> REVISION comments</b>		
<b>1. Is the manuscript important for scientific community?</b>  (Please write few sentences on this manuscript)	Yes indeed. Mentioning the growing population of Slender Lorises in the region and the associated concerns about habitat disturbance adds depth to this scientific study and underscores the relevance of the study for conservation efforts. This highlights the importance of addressing human-wildlife conflicts to ensure the species' survival.	The aim was to bring out the Status of species and update the current situation of the species.
<b>2. Is the title of the article suitable?</b>  (If not please suggest an alternative title)	Yes, no changes required.	
<b>3. Is the abstract of the article comprehensive?</b>	The abstract effectively introduces the Slender Loris as an endangered species and highlights the importance of assessing its status and distribution for conservation purposes. This sets up the context for the study and emphasizes its significance. The abstract concisely presents the key findings of the study, including the abundance of Slender Loris in the Tiruchirappalli district and the methods used for investigation.
