

Name:	UTTAR PRADESH JOURNAL OF ZOOLOGY
Manuscript Number:	Ms_UPJOZ_3441
Title of the Manuscript:	Nucleotide Sequence and Phylogeny of <i>Rhynocoris marginatus</i> Fabricius based on 18S Ribosomal RNA Gene (Heteroptera: Reduviidae)
Type of the Article	Original Research Article

1: Review Comments

	Reviewer's comment	Author's feedback
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient</p>	<p>1. Yes. The insect is important for agriculture. The objective of the work is not clear. The introduction is not complete.</p> <p>2. Personally I would put the insect as the protagonist and not its sequence.</p> <p>Genetic diversity analysis of <i>Rhynocoris marginatus</i> based on the 18S gene</p> <p>3. It would clarify the objective better.</p> <p>4. Yes</p> <p>5. Yes</p> <p>6. NO</p>	

<p>and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The work is correct, but I understand that I should reorganize it. The objective is not clear, the introduction is not complete. The results are not clear.</p>	
<p>Minor REVISION comments</p>		
<p>Optional comments</p>		

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i></p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
