Title of the Manuscript:	<b>EXPLORING ANTIBIOTIC RESISTANCE IN ARTIFICIAL INTELLIGENCE: A NOVEL PERSPECTIVE</b>
Type of the Article	

**General guideline:**

**This journal believes that no manuscript should be rejected only on the basis of 'lack of Novelty'**, provided the manuscript is sufficiently robust and technically sound. Too often a journal's decision to publish a paper is dominated by what the Editor/reviewer think is interesting and will gain greater readership - both of which are subjective judgments and lead to decisions which are frustrating and delay the publication. This journal will rigorously peer-review your submissions and publish all papers that are judged to be technically sound.
